## Summary

Backend developer with experience in Laravel, database design, and FinTech systems. Skilled in building scalable REST APIs, database integration, and project collaboration using Agile/Scrum. Strong foundation in C#, Python, and Django with hands-on project delivery in finance, healthcare, and web applications.

## Technical Skills

- Languages: PHP, C#, Python, Java, JavaScript, SQL
- Frameworks: Laravel, ASP.NET Core, Django
- Databases: SQL Server, Oracle, MySQL, PostgreSQL
- Tools: Axios, Ajax, Git/GitHub, JIRA, Postman, SoapUI, XAMPP
- Methodologies: Agile (Scrum), Waterfall
- Other: PowerCard modules, VISA & MasterCard systems, ISO 8583 knowledge

## Professional Experience

**Informax Technology Limited – Software Engineer & Web Developer** | Lalmatia, Dhaka | Sep 2025 – Continuing

- Provide Software Support.
- Assist Building Robust Software.

**FinTech Point – Card IT Specialist** | Mymensingh, Bangladesh | Nov 2023 – Aug 2025

- Designed and implemented database schemas and APIs in ASP.NET Core for FinTech applications.
- Led enhancements for VISA and MasterCard systems including fraud rule testing and 3D secure validation.
- Developed and tested card management systems using PowerCard modules, ensuring compliance with ISO 8583.

- Collaborated in Agile teams with sprints, backlog grooming, and daily standups.
- Mentored junior team members and coordinated testing across SIT and UAT phases.

## Key Projects

### **SZMC Event Registration form Along with Dedicated Admin Panel and Integrated Payment Gateway (Laravel, PHP- Under Development)**

- Have dedicated form for event participants.
- Form have calculated amount features for participants based on their guest preference.
- Image upload and preview segment.
- Integrated Bkash payment gateway.
- Dedicated admin panel for accessing and managing registration and event processes.

### **Jera MPL Website Alignment Issue Solution (Laravel, PHP)**

- Landing page of the Jera Website contains Event Segment and it was not functioning.
- Create a Method on Controller, adjust the views and link the routes with the requirements.
- The issue has been resolved.
- The website link: <https://jerampl.com/>

### **Phone Book Project with Authenticated API (Laravel, PHP)**

- Built secure REST APIs with using of Laravel Lumen API.
  - Built database schema with Eloquent ORM Technique.
  - Perform client side API testing with Postman.
  - Applied OOP and clean code practices to create maintainable backend services.
  - Contributed to Agile ceremonies including sprint reviews and backlog refinement.
- Github: <https://github.com/Radwanyo33/Laravel-Projects-for-growth/tree/master>

### **Loan Management Solution (ASP.NET Core, C#)**

- Built secure REST APIs and database schema with Entity Framework.
- Applied OOP and clean code practices to create maintainable backend services.
- Contributed to Agile ceremonies including sprint reviews and backlog refinement.

### **Blood Life - Blood Donation Web App (ASP.NET Core, C#)**

- Developed full-stack web app with ASP.NET Core and JavaScript frontend.
- Integrated authentication and donor/adopter management modules.

## Education

B.Sc. in Computer Science & Engineering | Mymensingh Engineering College | 2019 – 2022 | CGPA: 3.28

Higher Secondary Certificate | Government Science College | 2016 – 2018 | GPA: 4.25

Secondary School Certificate | Ideal School and College | 2015 – 2016 | GPA: 5.00

## **Languages**

- Bangla (Native)
- English (Fluent)
